

HYDRAMAXX 2600 TRUCKING DIMENSIONS WITH STANDARD 16" WIDE BOOT

NOTICE

All dimensions are standard engineering measurements. Actual dimensions may change due to individual machine design and manufacturing variations. Height shown is with buckets sitting on the trailer, 30psi in the front tires, and 30psi in the rear tires. Always check actual loaded dimensions before shipping.

Approximate gross weight: 46,000 lbs.

Notes:

Dimension "A" will vary depending on the size of the buckets and cutter widths.
