

# HYDRAMAXX 2710 TRUCKING DIMENSIONS WITH A STANDARD 16" BOOT

## NOTICE

All dimensions are standard engineering measurements. Actual dimensions may change due to individual machine design and manufacturing variations. Height shown is with buckets setting on trailer, 30psi in front tires, and 30psi in rear tires. Always check actual loaded dimensions before shipping.

Approximate Gross Weight: 49500 lbs.

Notes:  
Dimension "A" will vary depending on the size of the buckets and cutter widths.
